

Mechanical & Industrial Engineering
UNIVERSITY OF TORONTO

April 16, 2021

Vishal Radhakrishnan

103, Mars-E, Vasant Galaxy, Bangur Nagar, Goregaon West, Mumbai -400104, Maharashtra, India

Dear Mr. Radhakrishnan

I am pleased to advise you that the Faculty of Applied Science and Engineering wishes to offer you an undergraduate summer fellowship of the value of \$7000.00 in the Mechanical & Industrial Engineering department under the supervision of Oleksandr Voznyy. As a condition of graduation, students are required to obtain a minimum of 600 hours of practical experience through employment in industry. Please note the hours worked during this summer research fellowship should be used towards meeting this condition.

You should be receiving the payment in four equal installments at the end of each month from May to August, 2021. Please note that your earnings will not be taxed but must be declared to Canada Revenue Agency at tax time next year. You will receive a T4A slip from the University. As well, this fellowship income is not considered employment income, and hence is not insured under the Employment Insurance. The Canada Pension Plan also does not apply. Vacation pay is not paid on these earnings.

By August 31, you **MUST** submit to my Office a typed, one-page report on the research project and your contribution to it over the summer months; please include the name of the Fellowship you received in your report.

Please be advised that since you are not an employee of the University, you will not be covered by the University's Workplace Insurance. If you are injured as a result of an accident, you will not be covered by the Workplace Safety and Insurance Act (formerly the Worker's Compensation Act) or the Occupational Health and Safety Act. The University of Toronto does not provide health or accident insurance coverage for you and cannot assume any responsibility for injury to you or loss or damage to your personal property while on University premises.

May I extend my warmest congratulations and my best wishes for enjoyment and success in your research project.

Kindly let us know, by returning the enclosed form, whether or not you wish to accept this Fellowship.

Sincerely,

Chair Markus Bussmann

Mechanical & Industrial Engineering Department
